PRO SKILLS

C++

Javascript

C

React

Node

LANGUAGE

English

Projects

Airline Management System	Created the system in C++ based on a singly linked list concept but the hope mechanism of vertex and edges was implemented with a different concept. the hope mechanism is encoded.
Website	Created a business website based on React as front-end and Node JS as backend and used MySQL for database.

EDUCATION

2020-2024
Air University

BS Software Engineering
A software engineer is a person who applies the principles of software engineering to design, develop, maintain, test, and evaluate computer software. He builds applications that are scalable and efficient under the hood while providing engaging, pixel-perfect user experiences.

2019-2020
Punjab Collage

FSC
This is a science-based study program for intermediate students.
